### **OsCommerce CMS Installation**

Step 1: Please visit at <u>http://www.oscommerce.com</u> for Oscommerce CMS Solution.

OSCommerce is a Free and open source e-commerce solution.

- For OsCommerce documentation, please visit at <u>http://www.oscommerce.info</u>
- You can find a lot of OsCommerce template for online E-commerce website solution by using Google. e.g. <u>http://www.templatemonster.com/oscommerce-templates.php</u>
- For OsCommerce Tutorials, you will find it at this link: <u>http://www.templatemonster.com/help/ecommerce/oscommerce/oscommerce-tutorials</u>

# Step 2: Please download OsCommerce Online Shopping CMS Solution for your website: <u>http://www.oscommerce.com/Products</u>

- Step 3: When opening the zip file, "**catalog**" folder will be visible. It contains all the files needed to upload OsCommerce to a web server. Please upload these uncompressed files to a web server. If you want to make OsCommerce the main page, you would need to upload files to the root folder of their website.
- Step 4: You should open up a web browser and enter in the web address of where they uploaded OsCommerce.
   Note the includes/configure.php file may re-write its permissions which will need to be corrected later.
   You may need to correct permissions on other osCommerce files and folders as per the osCommerce installation guide.
   Files and folders include:
  - catalog/images to 777;
  - catalog/includes/configuration.php to 644 (444 on some servers);
  - catalog/admin/includes/configuration.php to 644 (444 on some servers);
  - catalog/admin/backups to 777 and catalog/admin/images/graphs to 777;
- Step 5: In includes/configure.php and admin/includes/configure.php you need to change some variables to configuration. OsCommerce automatically detects if the files and folders was uploaded correctly and it will redirects to the installation procedure as the following welcome page:

osCommerce Website | Support | Documentation

# Welcome to osCommerce Online Merchant v2.3.3.4!

osCommerce Online Merchant helps you sell products worldwide with your own online store. Its Administration Tool manages products, customers, orders, newsletters, specials, and more to successfully build the success of your online business.

osCommerce has attracted a large community of store owners and developers who support each other and have provided over 7,000 free add-ons that can extend the features and potential of your online store.

Server Capabilities		New Installation
PHP Version	5.4.14 🛩	The webserver environment has been verified to proceed with a successful installation and configuration of your online store.
PHP Settings		Please continue to start the installation procedure.
register_globals	Off 🛩	
magic_quotes	Off 🛩	> Start

5

Step 6: Please sets the database server and web server configuration. If everything is configured correctly, you may press "Continue" Button.

	Administrator Password	The password to us account.	se for the administrator	- The osCommerce Team	1. Delete the E:/All Web/mpay_oscommerce/install directory. 2. Rename the Administration Tool directory located at E:/All		
	Administration Directory Name admin	This is the directory section will be insta for security reasons	where the administration alled. You should change this 5.		Web/mpay_oscommerce/admin 3. Set the permissions on E:/All W /configure.php to 644 (or 444 if	eb/mpay_oscommerce/includes this file is still writable).	
	Time Zone Rangoon v	The time zone to ba	ase the date and time on.		<ol> <li>Set the permissions on E:/All W /includes/configure.php to 644</li> </ol>	eb/mpay_oscommerce/admin (or 444 if this file is still writable)	

- Step 8: The last step in the installation procedure stores the database server and web server parameters to the configuration file on the web server. On successfully saving the configuration file, the installation procedure is finalized and the online store is ready to be used.
- Step 9: The catalog/install directory must be removed from the web server otherwise a user could use the installation procedure and reconfigure the online store to use another database server.
- Step 10: The file permissions on catalog/includes/configure.php and catalog/admin/includes/configure.php must be set to deny write access by the web server service. The folder permissions on catalog/images, catalog/cache, catalog/admin/backups, catalog/admin/images/graphs must be set to allow the web server service to write to for the Administration Tool to function properly.

## Adding MyanPay Payment Module at your OsCommerce CMS

- Step 1: Please download MyanPay Payment API for OsCommerce at the following Link. https://www.myanpay.com.mm/Download/Zip/osCommerce\_MyanPay\_Ext\_v1.1.zip
- Step 2: Then, please extract "osCommerce\_MyanPay\_Ext\_v1.1.zip". You will see ext, images, includes folder.

Step 3: Please **copy** these 3 folders and **paste** to your OsCommerce CMS folder at your hosting panel. (Note: you need to allow overwrite files.)

<ul> <li>↓   ↓ ↓ ↓</li> <li>File Home S</li> <li>( ) → ↑ ↓</li> </ul>	ihare View ▶ Computer ▶	File Manager         Manage the contents of your website(s) with simple point-and-click actions.         Right-click context menus will give you quick access to various file manipulation options and a drag-and-drop functionality will allow y new files from your PC in an instant (Firefox 3.6, Safari 4 or Chrome browsers required).         Host shortcuts: <ul> <li>Path:</li> <li> </li></ul>	ou to upload	<ul> <li>Upload r</li> <li>Video Tu</li> <li>Help</li> </ul>	new file(s) itorials
